Our
programme
for startups

We boost your **growth**

We give global support to the growth of your startup, offering you a close and continuous companionship that will boost your business opportunities and attract capital in an exponential way.

Let's get down to business.
We know how to accelerate
your access to capital and
the market.

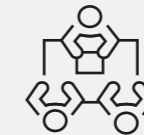

We offer you...

Connection to the market

Access to public and private funding

Connection with technology partners

Visibility and positioning

International connection

Protection and valorisation of your technology

It's now or never.

Deep tech is a global phenomenon.
Private investment in these technologies has skyrocketed.
Industries, cities and healthcare are going digital.
Do you want to connect to the market? Are you looking for capital?

▲ **20%**
per year

Global private investment in deep tech has been growing by 20% every year since 2015.

40 M€

More than 30 companies from our ecosystem are currently seeking €40 million in funding.

18 success cases

of startups received private investments over the last 5 years in our deep tech ecosystem.

We make **entrepreneurship** in deep tech an exciting journey.

Connection to the market

We bring you closer to end users and integrators who may be interested in your developments. Thanks to our wide network of contacts and extensive collaboration with more than 30 sectors, we help you to identify market needs in order to increase the probability of success in the launch of your product.

Visibility and positioning

We give visibility to your products and services through our communication channels and our press agency specialised in technological innovation to position your technology in the deep tech ecosystem. This visibility translates into new business opportunities and projects.

International connection

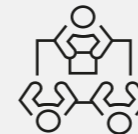

We give you access to our extensive network of contacts on five continents and help you to join international projects. We carry out collaboration programmes with countries in North Africa, the Middle East and Latin America, in search of funding and matchmaking opportunities for you.

Access to public and private funding

We help you get public and/or private funding to develop your technology, commercialise your product and grow in the market.

Connection with technology partners

We give you access to technical expertise and help you find the best technology partners for your project.

Protection and valorisation of your technology

Our ecosystem is made up of experts in the protection and valorisation of technologies. Having access to this expert forum can help you to valorise your technology, protect it and face an investment round in the best conditions.
