

# smart agrifood industry

Making a difference in food processing

10.11.21 VIRTUAL FAIR & CONGRESS

**EXHIBITORS** PARTICIPATION OPTIONS

### **Connect** with your future clients

An immersive virtual experience in which to discover the latest technologies for the agri-food industry.

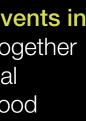

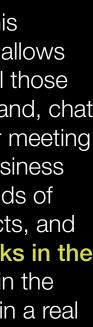

Smart Agrifood Industry is a continuous programme of events in virtual format that will bring together leading experts in technological innovation applied to the agrifood sector.

At this **second edition** of Smart Agrifood Industry you will have the opportunity to showcase the latest innovations in technologies for the food processing industry that can be applied to food safety and quality control, as well as to catch up on trends and get to know better customers, competitors, suppliers, distributors, etc. The agrifood industry must address major challenges that include environmental impact and biodiversity loss, food optimisation, as well as food quality and security - all in all challenges for which deep tech is a great ally.

The virtual environment of this Smart Agrifood Industry expo allows you to generate leads with all those contacts who pass by your stand, chat behind a counter or sit at your meeting table, collect and hand out business cards, show videos and all kinds of information about your products, and of course, attend and give talks in the congress area or participate in the B2B matchmaking zone like in a real face-to-face event.

### 01 **Exhibition** Area

As much exhibition area as you can imagine to host the innovative technologies applied to the agrifood industry.

### 02 **B2B** Area

Participants will be able to automatically schedule meetings with each other and will have voice chatrooms in the format of tables available for conversations.

# 03

### Meeting Area

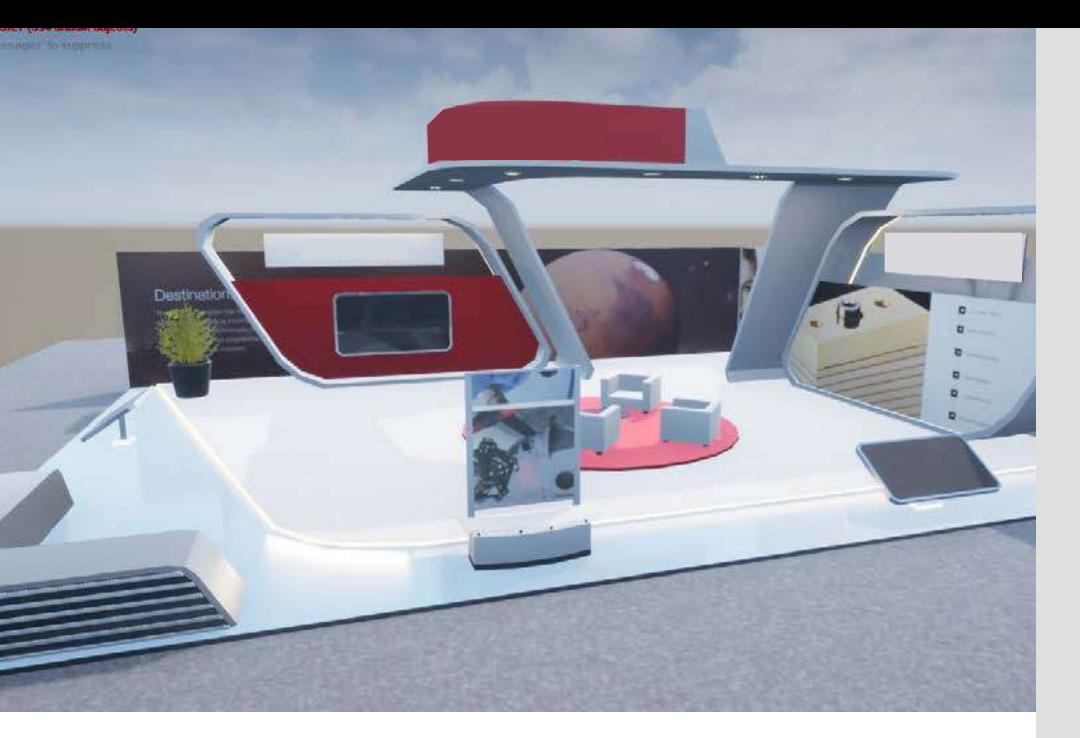

Virtual rooms with different capacities to attend your private meetings.

# 04

### **Auditorium**

The virtual auditorium will host the best speakers to present their cutting-edge technologies for the food processing industry.

### **Innovation Workshop END USER SPONSOR**

### Presentation of 2 innovation challenges at the workshop

The End User Sponsor will be able to participate in the event free of charge. The only condition for participation is to make a presentation of 2 technological nnovation challenges in a 1.5 hour workshop held in the virtual workshop room, where a debate moderated by specialists will be conducted with the aim of generating collaborative innovation projects.

Inclusion of advertising banner on hangar walls

Inclusion of the brand with a link to its website in the event's Newsletter

Mention of the brand's participation in social media channels

Pre-event press release: mention of the brand and inclusion of the logo

#### Services included in the exclusive showroom area

The Innovation Workshops are aimed at deepening the technical knowledge of technological challenges presented by end users from the industry. The aim of the sessions is to discuss the different options to address these challenges through collaborative innovation projects. These are technical innovation meetings moderated by experts, with a proven and very effective methodology for groups of up to a maximum of 30 people.

#### Marketing and communication elements

Inclusion of the logo highlighted on the event website

### **Condiciones particulares** de contratación

The secpho team will accompany End User Sponsors, through a challenge approach process, in defining the requirements of a technological challenge.

Subsequently, through a **tech** scouting process, the cluster team will work on this challenge with its ecosystem to detect technologies and capabilities that can provide a response. With the entities that present possible solutions to the challenge an Innovation Workshop will be held.

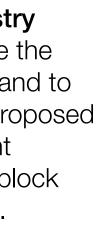

The Smart Agrifood Industry technical team will prepare the workshop room at secpholand to organise a debate on the proposed challenges. Within the event programme there will be a block dedicated to the workshop.

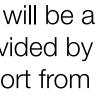

During the workshop there will be a dynamisation service provided by the secpho team and support from technical staff.

The perfect place to present your capabilities or technologies with the maximum dissemination to solve the current challenges facing the sector of tomorrow.

Are you ready to exhibit?
